Calculus 150 Homework Assignments

Fall 1998

There are 14 homework sets. Each homework set is divided into two parts. Part 1 consists of about 50 routine problems from the text. Part 2 consists of a few challanging problems. Part 1 is worth 7 points, while Part 2 is worth 3 points. You should do all of Part 1 and as much of Part 2 as you can. Solutions to some Part 2 problems will be posted on the wall next to my office (Neckers 465) and on the webpage: `http://nkrs465.math.siu.edu/~mike/150/`

Homework is due the first class day of each week. Late homework is half off for each calender day late. All assignments are subject to change, so come to class!
